Deceuninck is a global leader in the design and manufacture of high-quality systems for **windows & doors** as well as **high-design building products** including **interior, roofline, decking, cladding** and **outdoor living systems**. Our core technologies include **uPVC extrusion** and Deceuninck's **revolutionary Twinson material**.

In the design and manufacturing of our windows & doors, Deceuninck gives priority to constant **innovation** in materials, products and applications. These innovations include the **patented UVresistant Solex coating system**, not to mention our revolutionary **Twinson material** that merges the benefits of wood and uPVC into a single base material. Deceuninck products combine this groundbreaking technology with the absolute best in timeless design; incorporating an accent on natural colours. Deceuninck employs a **cradle-to-cradle** philosophy in its design and manufacturing, providing many years of quality service, after which our products can be **fully recycled**. The Deceuninck group is active in **more than 75 countries** across **Europe, North and South America, Asia and Australasia**. Our **35 production sites and sales subsidiaries** are supported by some 2,800 employees worldwide. We proudly extrude our premium products in the following countries:

• Belgium • France • Germany • Poland • Russia • Turkey • United Kingdom • United States

Deceuninck is quoted on the **Euronext stock exchange**. Its head office and coordination center for the Group is located in Hoogdele - Gits (Roeselare), Belgium.

Roller Shutter

Windows brighten our lives and capture the view, but what if we could make them disappear when we wanted. Burglars look at your windows as the weak link into your home. Using Deceuninck Roller Shutters improves your home security by deterring any potential intruders.

Protection

Keep your family safe and gain valuable energy savings. Roller shutters add a strong exterior layer to your home, not only improving your home's insulation; they help protect you from glare, noise and the danger of broken glass.

When the storm rages outside, roller shutters give your windows additional protection against flying debris. Enjoy an added sense of privacy and safety while discouraging burglars towards an easier target.

The Deceuninck Roller Shutters:

- are made from the highest quality profiles according to European quality standards!
- are designed to look perfectly matched to your style
- are durable, ecologically friendly and weatherproof
- are resistant to the harshest climates
- do not require any special maintenance
- have excellent heat and sound insulation
- make a home warm and comfortable.

Deceuninck roller shutters enhance the appearance of your home while adding immediate value to your property. They also provide a powerful psychological crime barrier and are recommended by many insurers. Your family benefits from additional home insulation that saves your cooling and heating costs. Your house is kept cozy and comfortable all year long. Roller shutters protect your home interior from sun glare, heat and UV damage. Deceuninck roller shutters also act as acoustic insulator, reducing noise levels significantly. Complete privacy when you need it and unobstructed views when you want it!

Louver Shutter

Louver shutters have been a long standing and functional element of modern building design. Deceuninck have reclaimed this important architectural feature, refining its aesthetics and performance for today's environment.

Design

Louver shutters protect your home. Harsh sun and extreme weather can fade your interior, damage your home and leave your family vulnerable. Deceuninck louver shutters protect you from the elements and deliver a strong sense of design and style.

For the best result in your home, Deceuninck louver shutters can be installed to the frame of your windows or on the wall if required.

To best suit your design, louver shutters are available as a single sash, double sash and the bi-folding system for larger openings.

Best of all, Deceuninck Louver Shutters are designed to suit all window types. Our leading design and high-quality components will assure you of an attractive and functional louver shutter for many years to come.
